

Connecting Cumberland and North Yarmouth through stories, trails, and technology

CREST 2006

Summer 2006

- Summer Institute at Darling Marine Center
4 teachers and 5 students
- Web Design, GIS, and Ethnography
- Developed the action plan with short and long term goals

CREST Action Plan

- Plan to map using GPS and GIS all existing trails in Cumberland and North Yarmouth
- Develop a CREST Web site
- Present to town and school leaders to raise awareness.

CREST Purpose

To develop a web based resource for Cumberland and North Yarmouth to includes digital maps of trails, landmarks, and oral histories.

Where are we?

- CREST group meets after school as a full group, but struggles to find a consistent day and time.
- High School group meets on Day 4 during lunch.

Web Development

- CREST Website developed by Will.
www.willswebsite.org
- Website to include maps and oral histories.
- Hope from the Island Institute presents web development information to Mr. Hasch's Service-learning Class.

Ethnography

- Video Production class creates oral histories using iMovie.
- Difficulty with PC/Mac compatibility and software.
- Oral Histories will be linked to maps.

GIS

- Technology troubles with laptop - back to Toshiba twice....
- No Arcview
- GPS mapping will happen in the spring
- Opportunity to work with CIS students

Goals

- Raise awareness about the CREST project.
- Document and share local stories
- Document and share digital maps
- Increase GPS and GIS opportunities
- Increase web development opportunities
